

*Honey Bees  
and Bears*

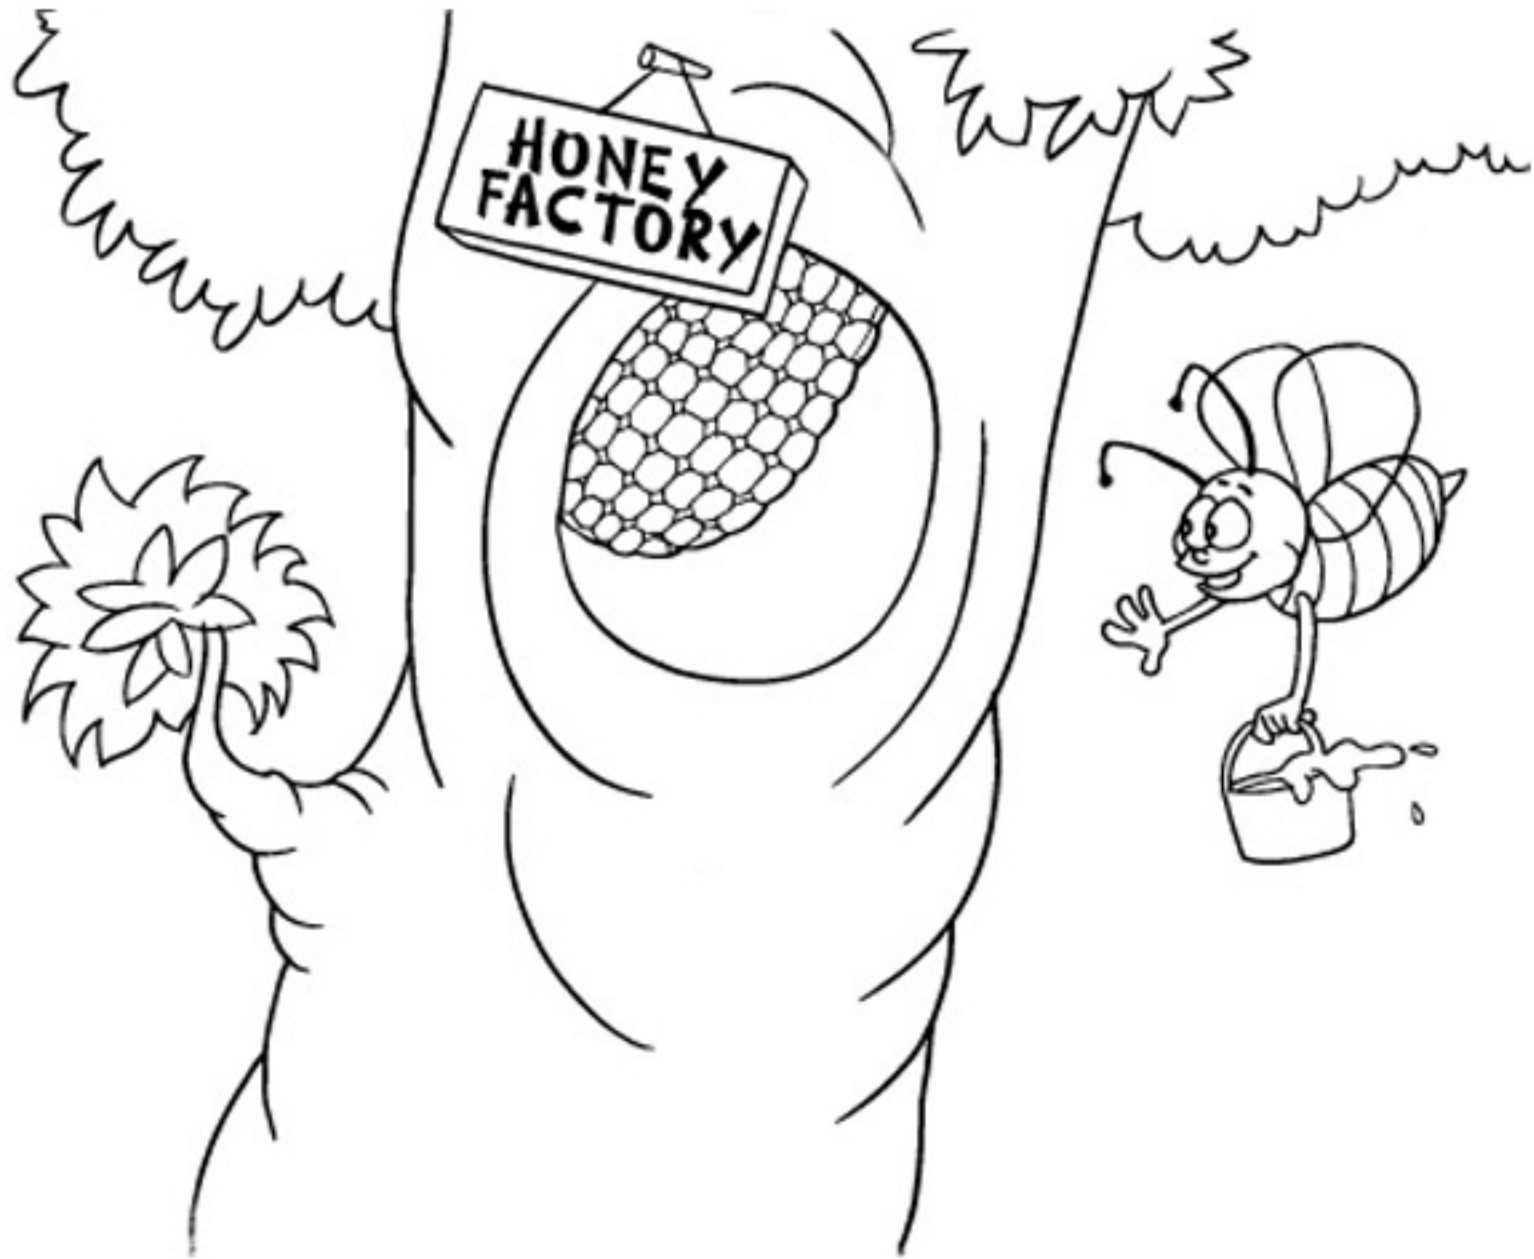

*By Kid Media Music*

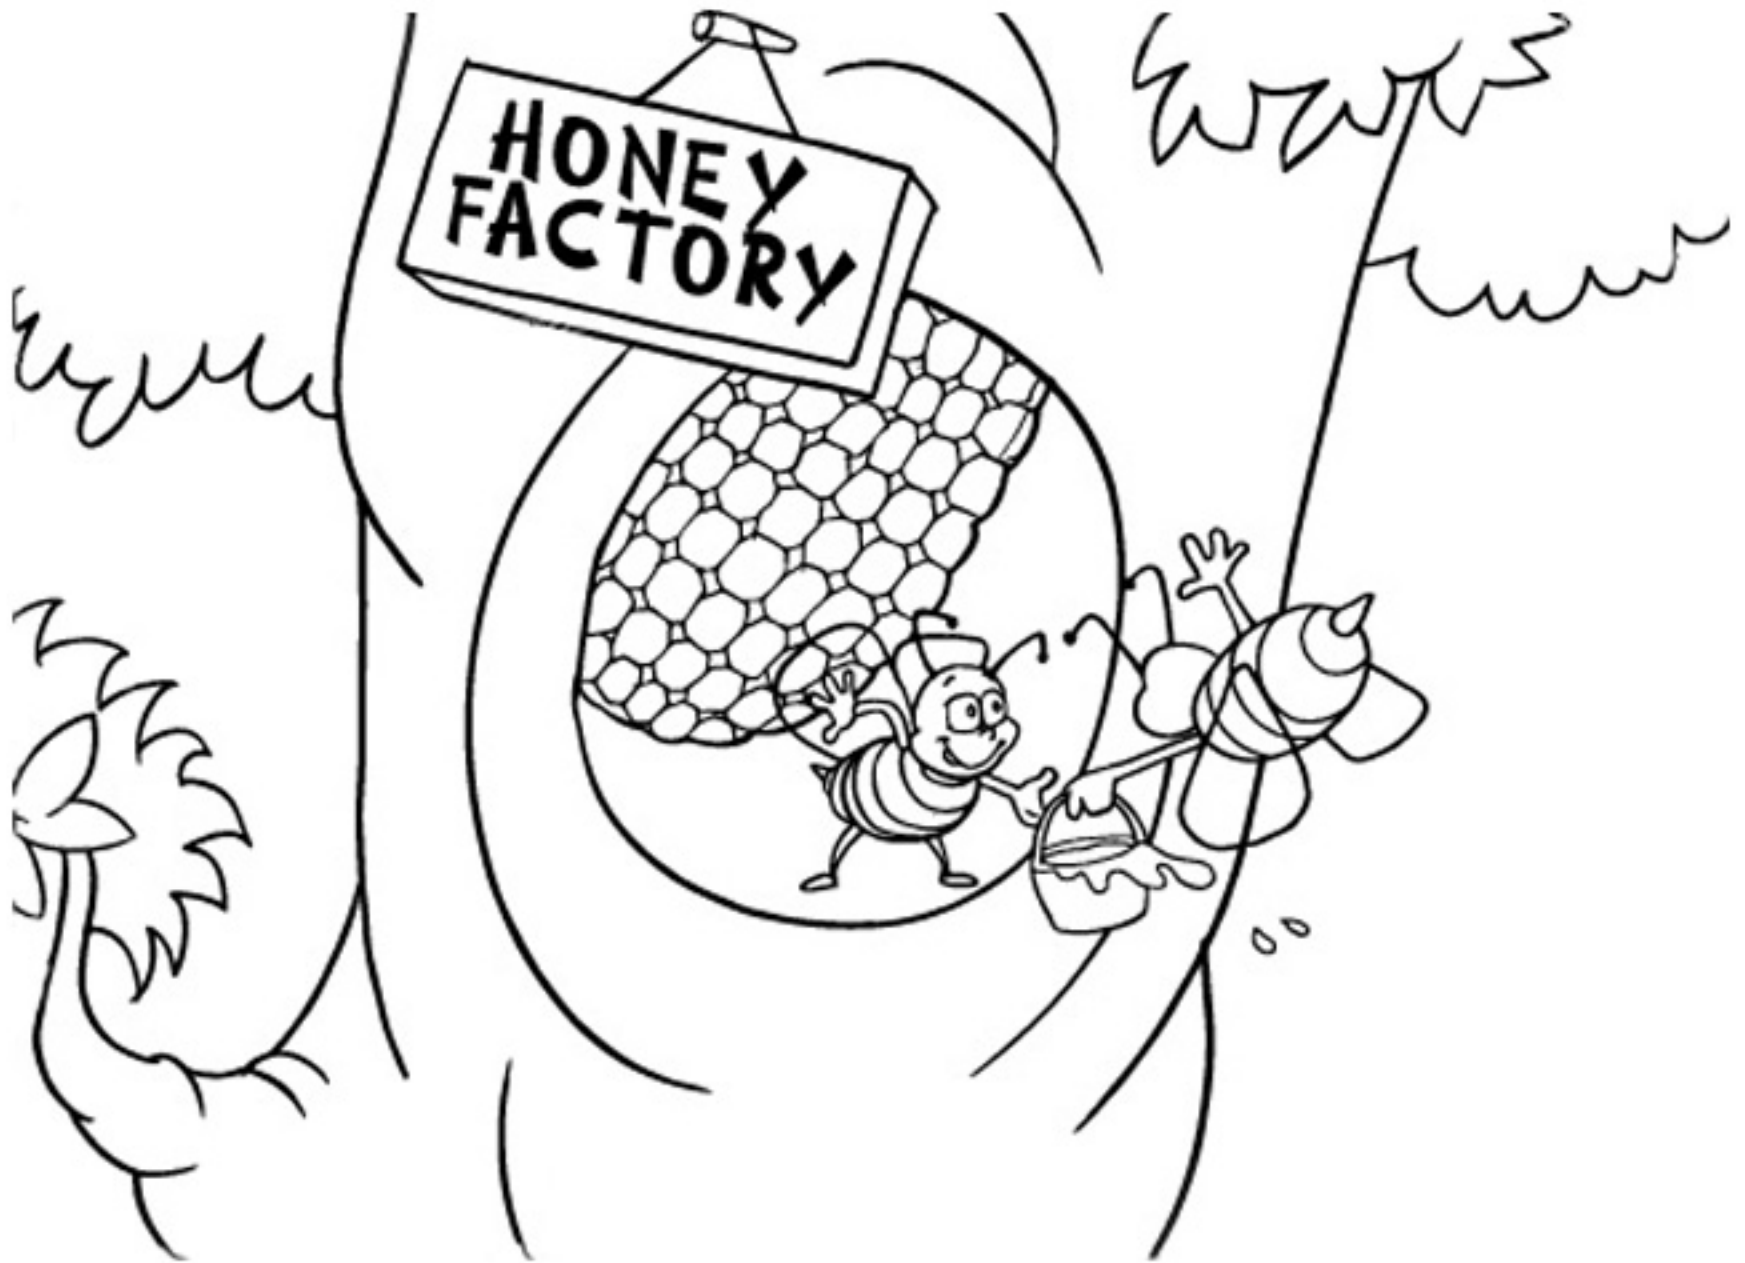

Honey bee, honey bee, you're so sweet,  
Always making something good to eat.

You make your busy buzzing sound hour after hour.  
You stay so busy buzzing 'round flower after flower.

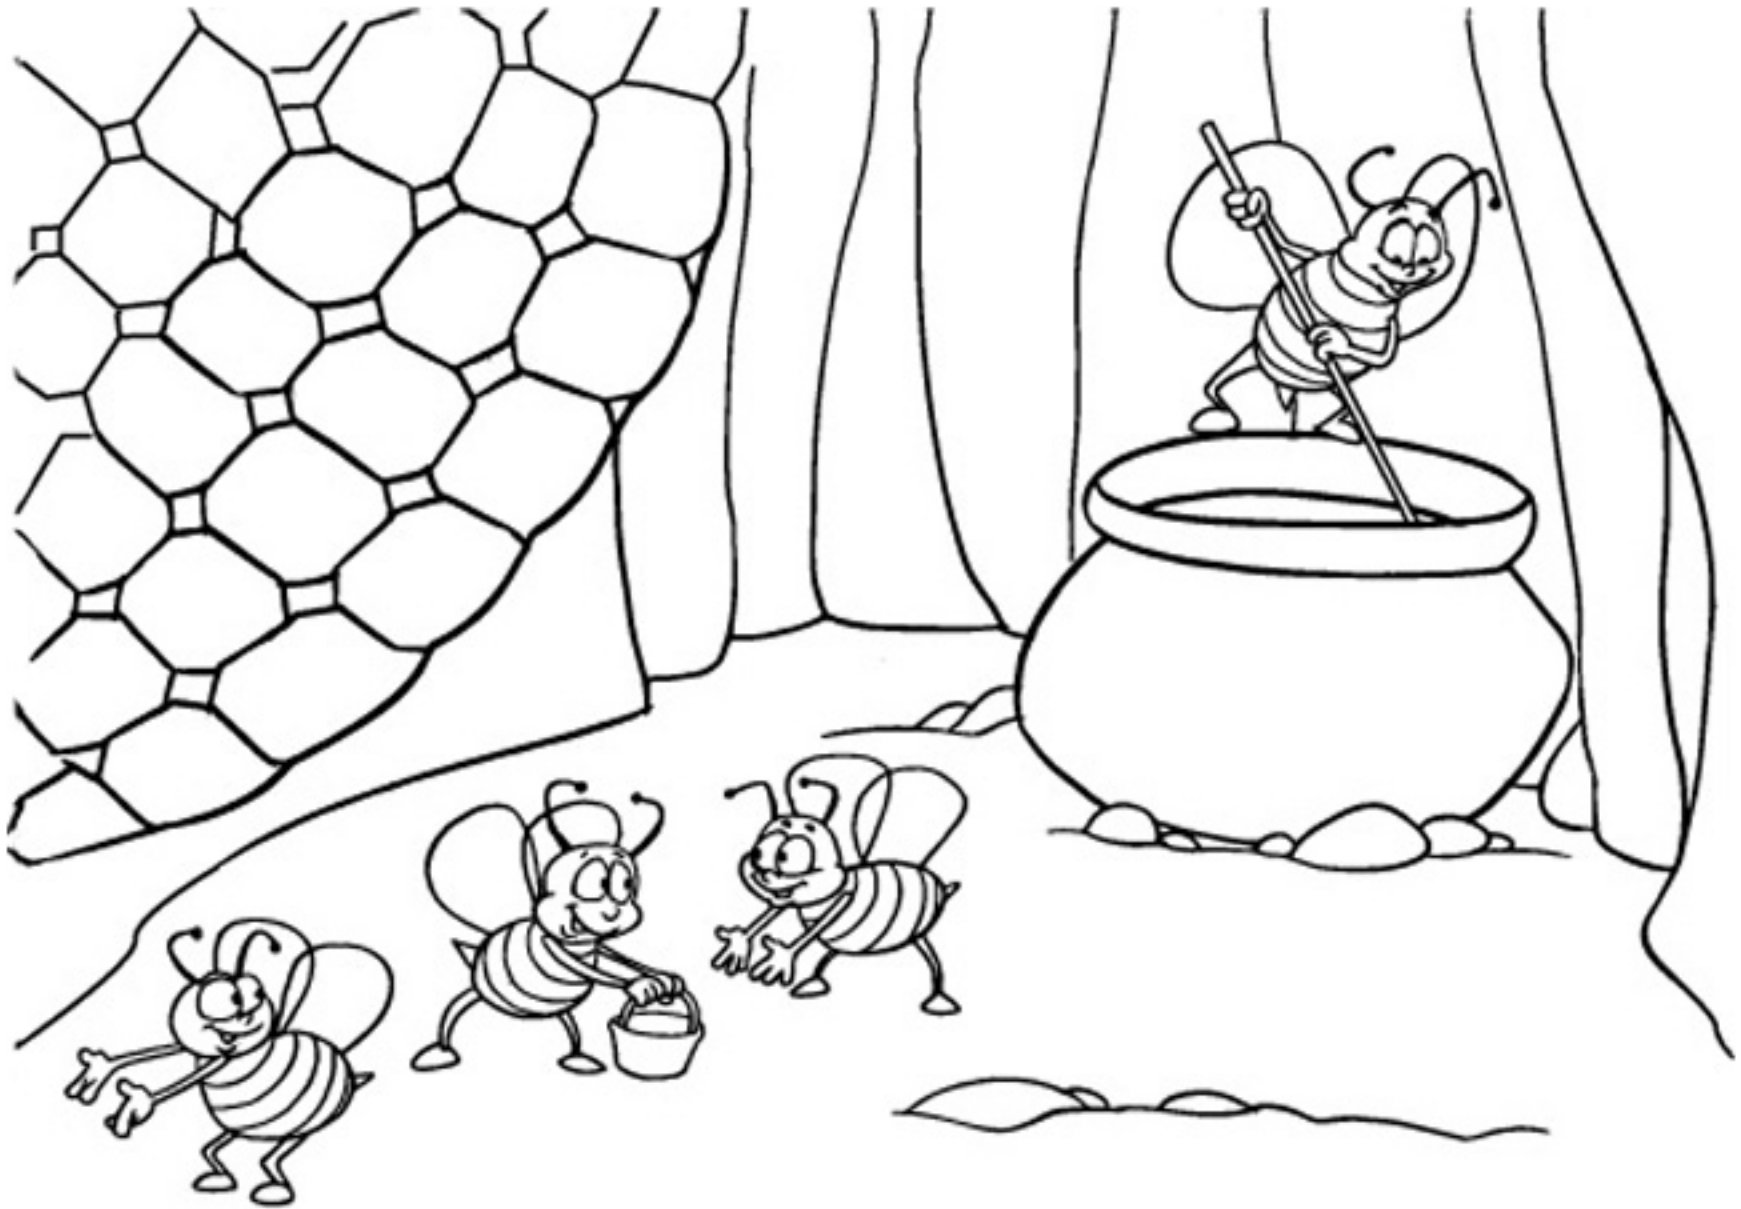

You always seem as busy as a busy bee can be.  
There's nothing on your mind except making your sweet honey.

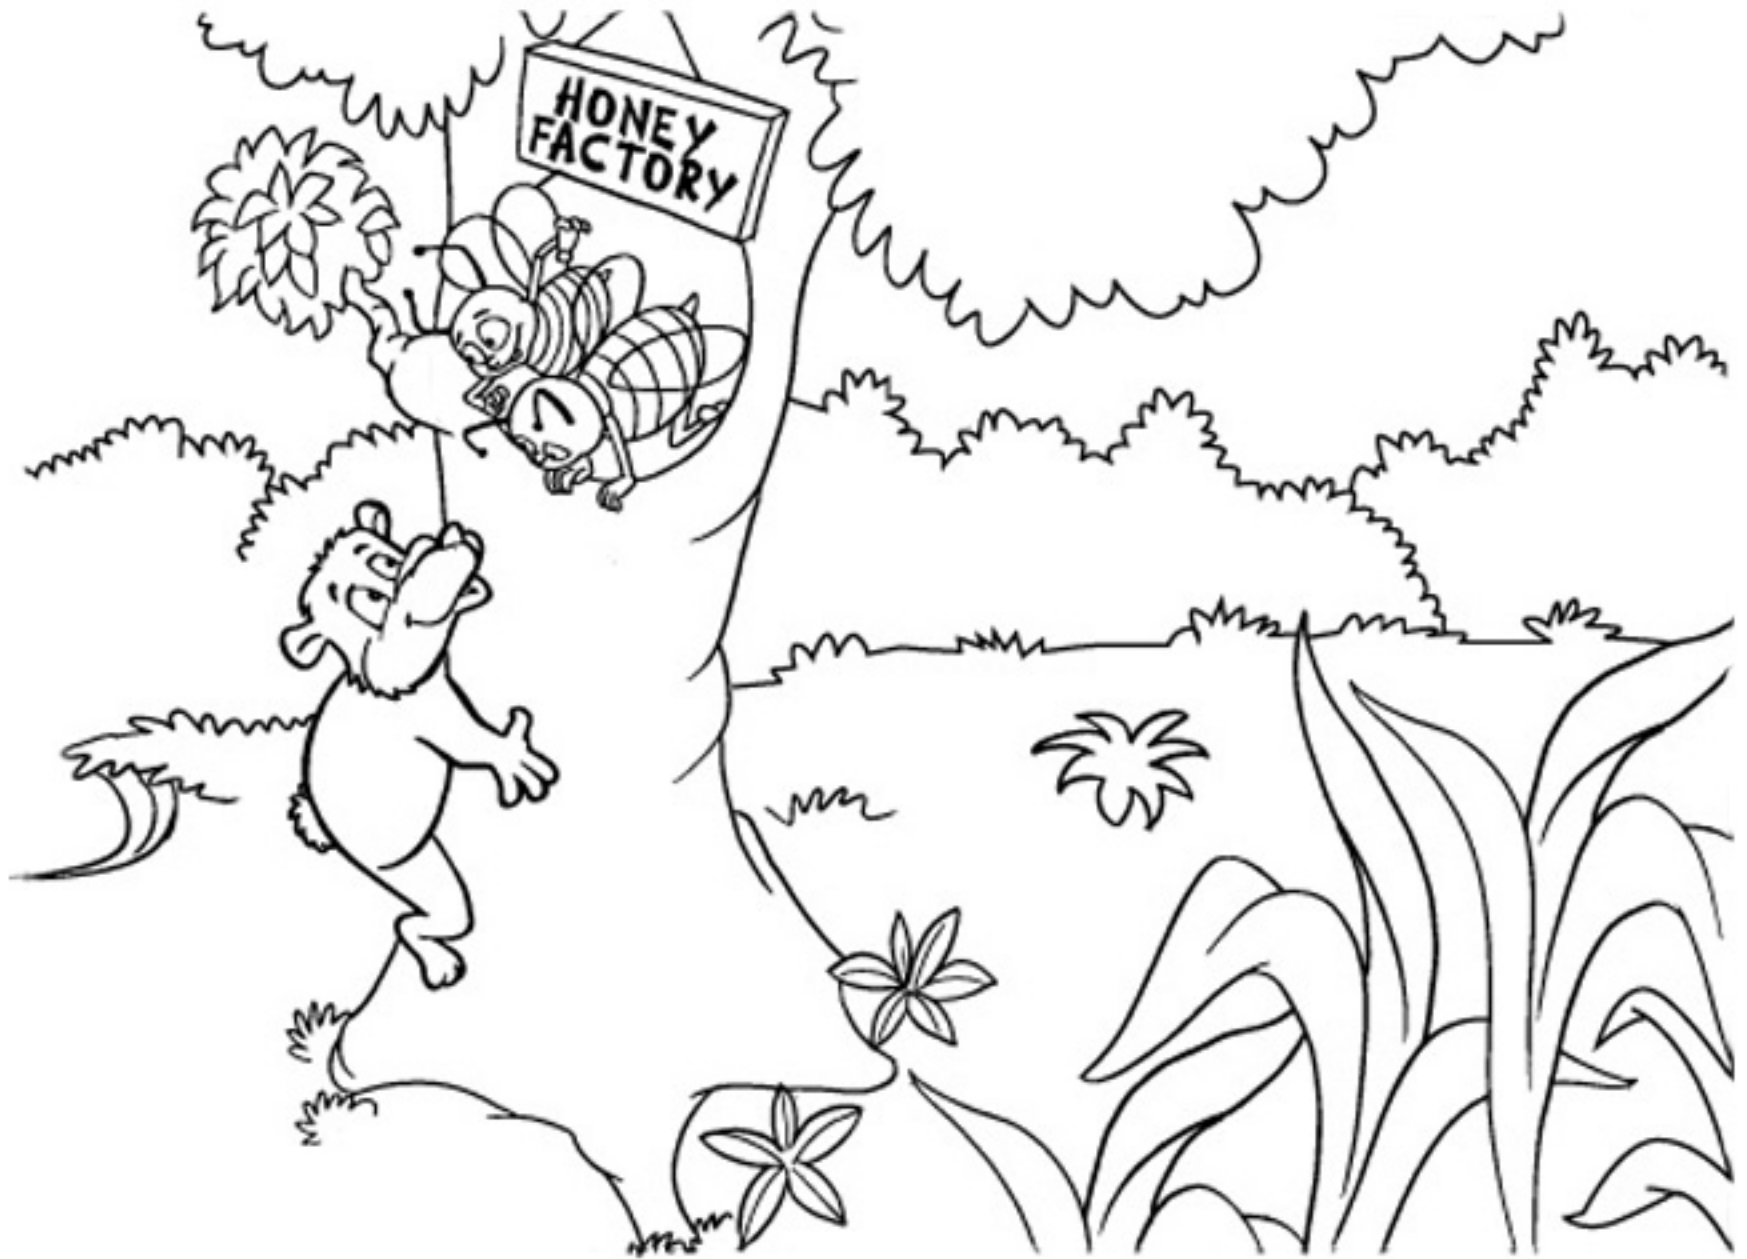

Bees believe in making honey, that's a simple fact!

"Yum, yum, I want some."

Bears believe in taking honey for a little snack.

"Yum, yum, here I come."

Bees, be careful, here's a bear with honey on his mind.  
Bear beware, proceed with care, these bees won't be too kind.

They sting you on your ear and nose if you take their honey.  
And you'll end up all hurt and sad with an empty tummy.

“Boo hoo, I got stung.”
