Birds come in different and beautiful colors.
Let's see some colorful birds.

This bird is a blackbird, or crow. It has shiny black feathers.

This blue starling likes to live out in the open.
It has dark blue feathers.

An owl comes out to hunt at night. It is covered with soft brown feathers.

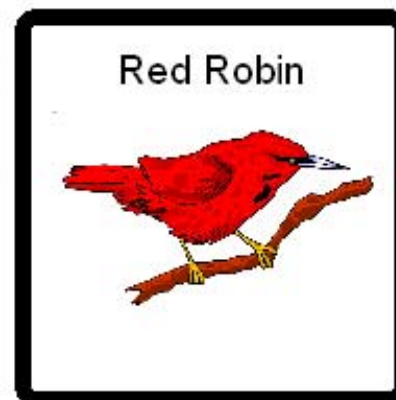

This is a grey pigeon. It is a city bird. Maybe you've seen him at the park!

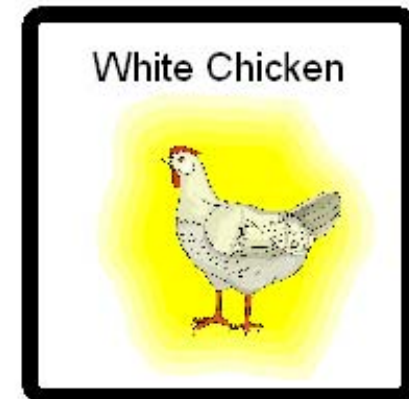

A green parrot is a fun and smart bird. A parrot can be trained to speak up to twenty words!

This is a pink flamingo. It gets its color from the food it eats.

A red robin can be seen in the spring. It is a type of thrush, and has a beautiful, almost continuous song.

A chicken lives on a farm. A white chicken starts out as a yellow chick. There are more chickens than any other bird on the planet!

A yellow canary is a bird that is a great pet.
It has a sweet and beautiful song.

This bird is a macaw. It has a rainbow of colors.
You can learn a lot about colors from birds!
