Lesson Plans
Grades 2-3-4

Lesson: Story Chart

Materials: bulletin paper; construction paper or recipe cards; markers/pencils

Make a story chart on a long strip of bulletin board paper to be divided into the following story elements: title, setting, characters, problem, events, ending.

The teacher will lead the class in the discussion and fill out the story chart.

Next, discuss what they think was in the blue clear liquid. It had strange powers. Have each student write the recipe for the liquid and remember that it's top secret! Only the student's imagination knows what's in the liquid invention.
