In the spring, the weather starts to get warm.

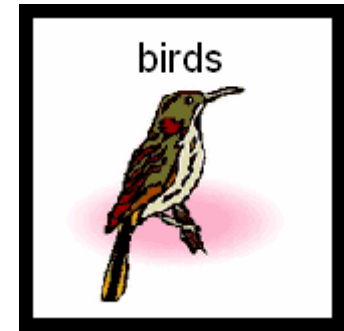

In the spring, we change the clocks,
so daylight stays longer.

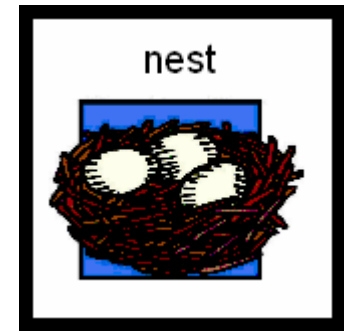

In the spring, flowers begin to grow.

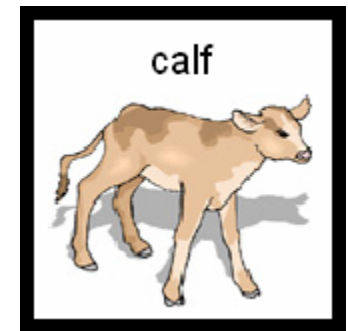

In the spring, we see buds on the trees.

In the spring, we see the birds coming back from the south. They come back to the north in the spring.

In the spring, birds make their nests and lay their eggs.

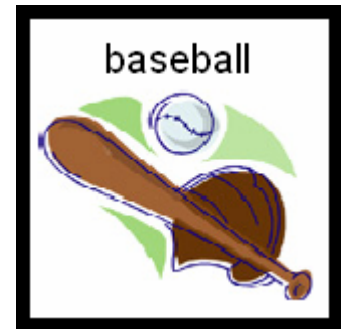

In the spring, many baby animals are born. Lambs, goats, and cows have their babies in the spring.

In the spring, we can go outside and play in the park.

In the spring, we can go outside and ride our bikes.

In the spring, baseball season starts.
I love springtime!
