18	19	20	21	22	23	24
25	26	27	28			

Valentine's Day is celebrated on February 14th.

Valentine's Day is a day to show we love each other.

On Valentine's Day we see Cupid.
Cupid is a symbol of Valentine's Day.

On Valentine's Day, we send cards to people we love. The cards are called Valentines.

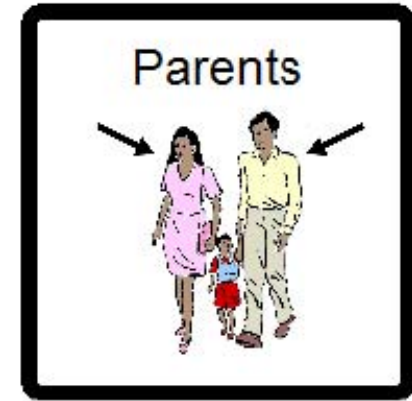

On Valentine's Day, we give sweets to show our friends and family how sweet we think they are. Heart shaped boxes of chocolate are a sweet tradition on Valentine's Day.

Sending flowers is another tradition on Valentines Day. Flowers help to show how much we love our friends and family.

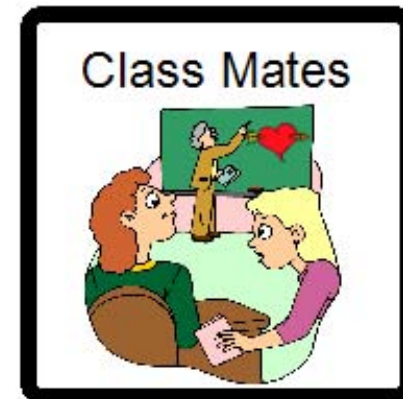

On Valentine's Day, some people write poetry to show how much they care.

You can send valentines too many different people. You can send a Valentine to your parents.

You can send a Valentine to your friends.

You can give a Valentine to the people in your class.

I love Valentine's Day!
