How do we dress in the winter?

In the winter we wear a long sleeved shirt. The long sleeves cover our arms.

In the winter we wear a long sleeved shirt. The long sleeves cover our arms.

In the winter, we wear long pants. The pants will cover and protect our legs.

We also wear warm socks. The socks cover our feet, and keep our toes warm and toasty.

Some people wear long underwear under their clothes. Long underwear makes us feel extra snug and warm.

When we go outside, we wear a winter coat. The coat covers and protects our bodies from the cold. A coat also keeps body heat in so we feel warm.

A scarf is great for covering your neck.
It keeps the cold wind from getting in.

Ear muffs cover your ears. Our ears get cold easily so wearing ear muffs is a good idea.

A good hat is really important. A hat protects our head and our ears.

Gloves cover your hands. Good gloves keep your hands warm and let you wiggle your fingers.

Mittens also cover your hands. They keep them warm and snug.

If it snows, we can wear water proof snow pants to help protect our legs. Snow pants are great for sledding and skiing!

In the winter, we wear boots. Boots are warm and water proof, and protect our feet from the cold and snow.

Winter clothes are great for protecting us,
so get dressed, go out and have fun! I love
dressing for winter!
